## **Joy in Meditation**

We all need to learn to have a time of meditation with God. It begins with reading the scriptures and asking the Lord to speak to your heart. It means taking time to grow a little spiritually.

If you will take some time to meditate with God you will find that your day will be more rewarding and it will help you through those tough days when they come. And I promise you they will come!

A very important step you need to do to medicate properly is to chose a time and try to do it each day at the same time. Don't allow anything to get in the way of your special; time with God.

Are you enjoying a special time of meditation? If not why not begin today.

## From the Pastor's Desk

We didn't get any response from our newsletter last month. I was hoping that we might have some who would be interested in some of the things we brought up.

We will try giving it a little more time to see if maybe some are just slow in responding. You can view the newsletter on the church webpage at <http://www.pvgbc.org> then click the newsletter link at the top of the page and then go now and select the month you want to view on that page.

We would like you to visit our new Facebook page at the following: <http://www.facebook.com/PVGBC>. We ask you to click the "LIKE" button next to our name at the top of the page. We are looking to have 75 "LIKES" by the end of February. We didn't reach our January goal. Please help us with this because it increases the number of people we can reach the more we get.

### Every Day Valentine

If every day were Valentine's Day,  
then every day I'd tell you  
I wish there were someone for everyone  
to lighten burdens, generate smiles,  
and make life a happier place,  
as you do for me.  
What a wonderful world that would be.
